Betreff **Control measures  
Spread of the Coronavirus CoVid-19**

Dear Sirs and Madames,

The spread of the Corona virus CoVid-19 currently dominates general reporting. For our company AVR GmbH, the health and well-being of our employees and partners have top priority, so we are monitoring the situation very closely. Our goal is prevent the virus from spreading to our company.

We are sorry to inform you that for this reason we have decided to close our tank truck cleaning with immediate effect until April 14th, 2020. We will use this time to prepare the planned renovation work and to go into operation with a new and improved cleaning system as scheduled in April.

We will evaluate the situation regularly and inform you in good time about changes in our opening times. Thank you for your understanding!

Sincerely yours,

Ihr AVR-Team
